Forest Products

# RESOLUTE AT A GLANCE

Resolute is a global leader in the forest products industry with a diverse range of products: wood products, market pulp, tissue, paper

# OUR PRODUCTS

## Framing the spaces we live in with our wood products

Resolute is a large and growing North American producer of construction-grade lumber, decking and other wood products for the residential construction and home renovation markets, as well as for specialized structural and industrial applications.

<b>17</b> sawmills <sup>1</sup> Production capacity: <b>2.9 billion bf/year</b> of lumber		<b>2</b> remanufactured wood products facilities (bed frame components, finger joints, furring strips)	<b>2</b> engineered wood products facilities (flooring I-joists)	<b>1</b> wood pellet plant
---	---	---	--	----------------------------------

## Market pulp for a variety of consumer needs

We are a competitive producer of market pulp in North America. Our pulp can be found in many everyday products, including bath tissue, paper towels, packaging, specialty papers and absorbent products, such as diapers.

	<b>4</b> mills <sup>2</sup> Production capacity: <b>1.1 million mt/year</b>	<b>4</b> grades (northern bleached softwood and hardwood kraft, recycled pulp, fluff pulp)
---	--	---

## Our tissue products get you through the day

We produce private label and branded bath tissue, paper towels, facial tissue and napkins in premium, mid-tier and value grades for retail and away-from-home markets. We also offer our own brand of tissue and towel dispensers.

<b>4</b> facilities	<b>4</b> machines		Production capacity: <b>128,000 st/year</b> (116,000 mt/year)
	<b>14</b> converting lines		

## Our papers make a great impression

We are a leading global producer of newsprint and the largest producer of uncoated mechanical papers in North America. Our papers are used to print top newspapers and bestsellers as well as a variety of other publications and advertising material.

<b>7</b> mills <sup>2, 3</sup>	Production capacity: <b>1.5 million mt/year</b>	
-----------------------------------	--	---

1. Société en Commandite Scierie Opitciwan is an unconsolidated entity in which Resolute has a 45% interest. Forest Products Mauricie L.P. is a consolidated subsidiary in which Resolute has a 93.2% interest.  
2. Excludes Calhoun (Tennessee) pulp and paper operations, indefinitely idled in February 2022.  
3. Excludes Amos and Baie-Comeau (Quebec) newsprint mills, indefinitely idled in March 2021.

# SUSTAINABILITY AND THE CIRCULAR ECONOMY

## Responsibly managing our environmental footprint

Reinforcing our environmental credentials by taking appropriate steps to responsibly manage climate change is a primary area of focus of our sustainability strategy.

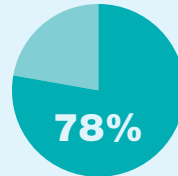

**34%**

reduction in absolute greenhouse gas (GHG) emissions (scope 1 and 2) since 2015

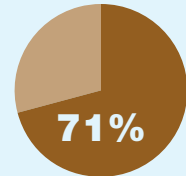

New commitment to establish a GHG emission reduction target in line with the **Science Based Targets initiative (SBTi)**

**86%**

reduction in absolute GHG emissions (scope 1 and 2) since 2000 at pulp, paper and tissue mills

energy requirements (electricity and fuel) derived from renewable sources, such as carbon-neutral biomass and hydroelectricity

pulp, paper and tissue mill residues repurposed for beneficial use<sup>4</sup>

## Ensuring the sustainability of the forests in our care

The forest products sector demonstrates the circular economy in action, beginning with its primary input: fiber, a renewable, natural resource. The regeneration of harvested woodlands is an essential component of responsible and sustainable forest management. We rely on various forest management techniques and best practices, including regeneration surveys, site preparation, planting of seedlings and seeding – all in combination with natural regeneration.

**100%**

forests regenerated

**100%**

managed forests certified to internationally recognized standards

**100%**

facilities certified to internationally recognized chain of custody (CoC) standards<sup>5</sup>

## Investing in innovation, research and development

We expect to start production at our new commercial cellulose filament plant at the Kénogami (Quebec) paper mill in late 2022. Made from wood fiber, cellulose filaments are a novel, 100% natural biomaterial additive for products, such as concrete, plastics and coatings, to improve their technical performance and environmental footprint.

Our regional supplier registration web portal supports the development of local, regional and Indigenous businesses. More than 5,000 suppliers have signed up through the portal since 2020.

We also continue to provide substantial financial support to universities and colleges to help promote the forest products sector and spark innovation. In 2021, Resolute provided \$290,000 in financial support to universities, colleges and students through scholarships, grants and endowments.

4. Recycling, energy recovery and beneficial use alternatives, such as agricultural land spreading for farmland fertilization.  
5. Effective March 2022.

# OUR PEOPLE

## Positioning the company as an employer of choice

With 7,000 employees across some 40 facilities in the United States and Canada, we positioned Resolute as a top employer, providing everyone the means to achieve their full potential through teamwork, a common culture and shared values.

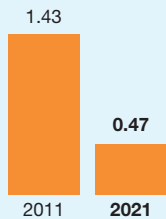

**1,490**  
new employees  
recruited

**7 collective agreements renewed**  
covering 540 unionized employees  
at our wood products facilities in Canada,  
helping to ensure operational stability  
and long-term competitiveness

## Maintaining our unwavering focus on safety

Safety is a top priority at Resolute. Every employee is responsible for identifying potential safety hazards and helping create an injury-free workplace.

In 2021, we recorded a world-class Occupational Safety and Health Administration (OSHA) incident rate of 0.47.

**27**  
operations (more than half)  
completed the year  
**without a single  
recordable injury**

Through Resolute's Board of Directors  
**Safety Award Program**  
**\$242,000 donated**  
to charitable and community  
organizations chosen by employees  
(\$2.5 million since 2010)

## Engaging our operating communities

Over the years, our integrated community outreach strategy in support of our operating communities has taken many forms, including financial and material support, and numerous volunteer hours by our employees.

**\$1.3 million**

contributed to various community  
and academic organizations

Including  
**\$150,000**

through special reward program  
based on COVID-19 vaccination rates  
across the company's operations

## Building Indigenous partnerships

We are proud of cultivating relationships with nearly 40 Indigenous communities and organizations in Ontario and Quebec, as we understand how integral natural resources are to the prosperity of their communities.

**20-year partnership with Fort William First Nation  
at Thunder Bay (ON) sawmill**

including announcement of C\$17 million investment  
at the facility, which is located on the First Nation's land  
and employs about 250 workers, many of whom are Anishinabek

**22-year joint venture  
with Band Council  
of Obedjiwan**

employs 50 workers at  
Opitciwan (QC) sawmill, more  
than 80% of them Atikamekw

**C\$25,000  
contribution**

to Lac des Mille Lacs First Nation  
Education Centre, an innovative,  
multicultural school established  
in 2019 in Thunder Bay
